

# BIRDFEEDER

We have developed a wide range of products, which will give attention to the garden for the consumers as well as for the birds.

Feeding spots for our birds are an important element in the garden!

If you want a wide range of birds in the garden, you need to feed them all year around!

All our products are tested for use and we only use the best material incl. good and environment safe paint!

Our famous and original Spiral are made in spring iron, which make them close again after you have put your fat balls inside them!

The hole idea unfortunately get lost if the spiral cant close again!

All products on this page can be packed in display boxes!

Fat balls are important articles for the people who want to feed wild birds in the garden !

We developed many kinds of fat ball feeders as you can see on page 2 & 3 in this catalogue.

More than 15 different "fat ball feeders" for many different kind of uses !

A news on this page is the *Cornet Feeder* which is an easy feeder for all kind of grains and decorative on the outside Christmas tree !

Fat ball Feeder XXL for big fat balls!

All our products are produced and designed by ourselves and most of our products are design-protected.

All paint used is environment friendly.

The paint we use is approved to be used also for children toys and furniture.

# BIRDFEEDER

Among our news for the season 2006-2007 we are happy to present a new line of feeders.

This products are most to be sold in the shop in our *new display box* as shown on the small picture below and on page 7.

For this season we have developed a new "Water Feeder" in order to bring this element into the garden all year around!

Here you see a unique range of different feeders in many sizes.

We have our popular Combi Feeder for both wild bird seeds and peanuts etc., so you can feed in one feeder many different birds in your garden.

If you have many birds in the garden, we have developed a giant Bird Feeder XXXL

This feeder "allow" you to leave on holiday, trips etc., without worrying about "your birds".
